Amazing photo books!

The idea behind [Solentro](#) came to Hampus and Tobias when they made a book for their father's birthday. They gathered greetings and stories from friends and family and made a book for him. It was a highly appreciated gift and they began to receive orders for similar books - that's how [Solentro - make your own book](#) - was born!

Today **Solentro proudly present new features** for you and your book making - a number of templates which makes it a lot easier to create your own photo book!

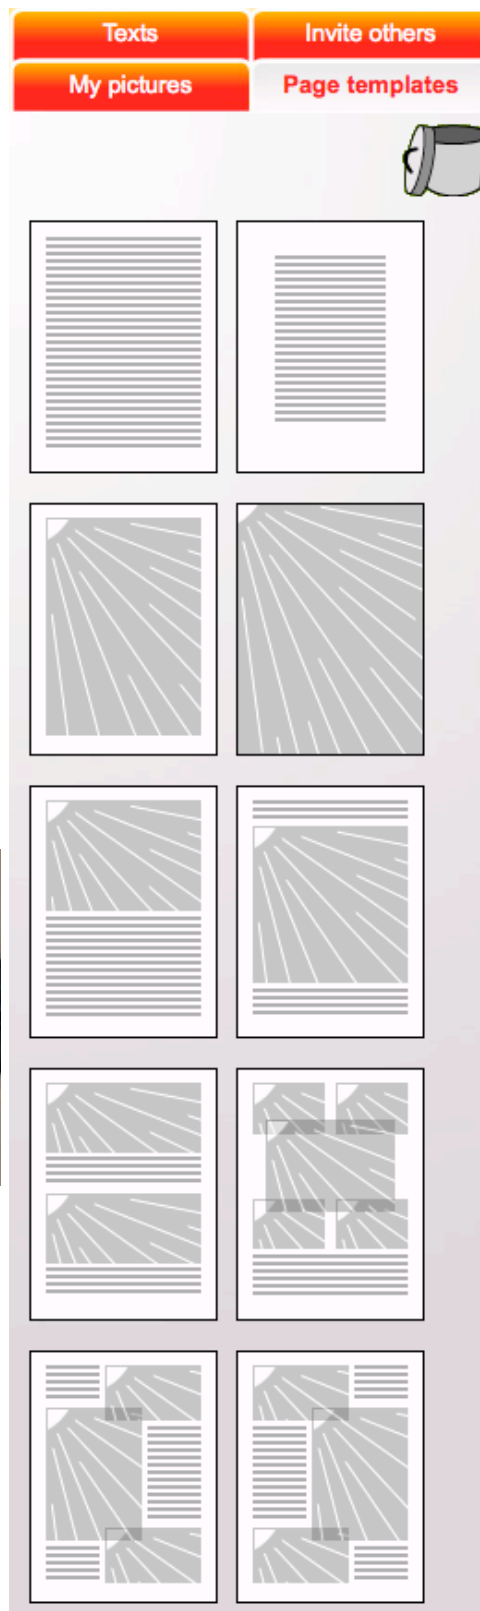

You can still make traditional books where the text automatically flows over several pages such as a novel or your own poetry collection.

Good luck with your next book project!

/Hampus & Tobias Schildfat, brothers and founders
